

Amendments to the Claims:

Please cancel non-elected claims 31 and 36-40, and amend dependent claims 32-35 as shown in the following claims listing:

1-29. (Canceled)

30. (Previously presented) A multilayer interference film comprising alternating layers of at least a first and second diverse polymeric material, the alternating layers having a refractive index mismatch in at least a first plane perpendicular to the film and having layer thicknesses suitable to reflect light over a range of wavelengths, wherein one of the first and second diverse polymeric materials comprises a polymer selected from the group consisting of polyethylene naphthalate and a copolymer of ethylene naphthalate.

31. (Canceled)

32. (Currently amended) The film of ~~either~~ claim 30 ~~or 31~~, wherein the first and second diverse polymeric materials have differing stress optic coefficients.

33. (Currently amended) The film of ~~either~~ claim 30 ~~or 31~~, wherein the refractive index mismatch in the first plane is at least about 0.03.

34. (Currently amended) The film of ~~either~~ claim 30 ~~or 31~~, wherein the refractive index mismatch in the first plane differs from a refractive index mismatch in a second plane perpendicular to the first plane.

35. (Currently amended) The film of ~~either~~ claim 30 ~~or 31~~, further comprising a third polymeric material different from the first and second diverse polymeric materials, the third polymeric material forming an interior layer of the film or a surface or skin layer of the film.

36-40. (Canceled)
